

# Finding eBooks

## Where to look

Search for electronic or ebooks in the Omni library catalogue on the main library web page.

Type your search into the search box in the middle of the page and click Search.

## Limit to books:

Omni searches for both books and articles. To the left of the search results there are ways to limit your results.

Look under Resource Type and click on Books and ebooks. You might need to click on Show more first to see this.

## Limit to electronic:

To limit to ebooks only, look under Availability and click Available Online.

Please note that this only displays if there were ebooks found in your results.

## Access online

Click on the book in your results to see the details. You'll find options for accessing the book online in the View Online area.

If you're off campus, you'll be asked to sign in with your network login.

## Read online

You can read the ebook online. Many only allow one person at a time to read, so try again if you have trouble.

Most only allow you to download or print a certain number of pages, which is specified on the page.

## Questions
