

# Finding books by title in Omni

To find books by title, enter the title into the Omni search box.

If you know the exact title, your result should be listed at the top of the results list.

If not, you may need to limit your results by books.

To do this, locate Resource Type in the left column of the results page.

If you see Books & eBooks as an option click on it. If not, click on Show More.

Click on Books & eBooks, then on Apply Filters.

Check the location of the book you want.

eBooks are available to you by clicking the Available Online link.

If a book is available in print, the record will indicate the university, campus, location, and call number so you can find it on the shelf.

Click the "other locations" link to see all locations.

All locations of the book are shown.

To see if a book can be signed out, click the arrow at the right of the screen.

If an item is marked "Loanable" it can be signed out of the library.

If an item is marked "Not loanable" it can not be signed out, but may be used at the library.
